

Ildikó Tóth

UX Designer

I am a code-savvy, detail-oriented designer in Portland, OR. Pivoting my career to the full spectrum of UX, I am excited to bring my previous experience with engineering together with my more recent UX work to directly design for how users interact with products.

EXPERIENCE

InReach Solutions - Designer + Developer

Jan - Jul 2017

UX Research & Coding: Converted customer requests into concrete projects, implemented in SQL.

Layout & Content: Designed print ads, posters, customer e-mail.

Brand Design: Revamped website, logo, business card + made new brand guidelines.

Intel - Business Analyst + Product Owner

Jul 2015 - Jan 2017

Data Visualization: Transformed a multidimensional dataset to visually show a 500k member hierarchy.

UX Project Management: Designed a location-smart onboarding experience. Developed wireframes, user stories and flows for cross-functional groups and external design agencies.

Financial Administration: Managed a \$250K service budget

Intel - Automation Software Engineer

Jul 2011 - Jan 2015

Software Engineering: Reduced execution time of manufacturing experiments by 50%.

Machine Learning: Used a proprietary machine learning software to automate material movement models in intel factories.
